

ML10D

ZKTeco's biometric lock technology has revolutionized the way many home owners and businesses protect their properties.

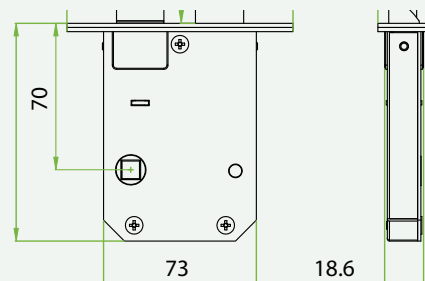

ML10D is a biometric fingerprint reader lock, with a top of the line optical reader that will go from scanning to unlocking in under a second. ML10D with biometric technology ensures genuine authentication and offers a safe and easy way to close and secure the door.

This is a versatile mortise lock with an attractive design and many other features for your convenience and security. Enjoy our two choice of design.

- Auto-Standby sensor technology
- Fingerprint or key entrance
- Robust mechanical structure and attractive design with zinc alloy metal casing
- No wiring - stand-alone installation
- German standard single latch easy to replace and install.
- Patented clutch motor design
- Reversible handle
- Audio - Visual indications for valid / invalid entries
- Normal Open mode indicator
- Stores 90 templates (3 groups)
- Extended battery life and low battery warning, data keep stored even in case of power loss.
